

- *Superior Iron Reduction*
- *Bottom Line Savings*
- *Cleaner Laundry*
- *Improved Dining*
- *Plumbing Protection*
- *Sparkling Dishes*

NOTE: Shown above with optional sweat jacket

Rust Handler Softeners have exceptional ferrous iron reduction capabilities.

- **Adjustable Regeneration Cycle Durations.** Allow the flexibility to maximize salt efficiency and conserve water usage.
- **Adjustable Regeneration Cycle Sequences.** Programming can be adjusted to handle your exact water conditions.
- **Full Flow Bypass Valve.** Easy to use, two handle valve allows you to water the garden or yard with raw water. Large porting prevents pressure drop.
- **Hefty Brine Tank.** Large, 300 lb capacity tank reduces the frequency of salt refill. Salt support platform keeps the salt dry and stops “mushing.” Safety brine valve prevents overflow of salt brine.
- **Modular Design.** Provides quick serving of the control. No bolts or screws means most repairs can be done without tools.
- **Non-corrosive Construction.** All components are made of fiberglass, stainless steel or similar materials to provide years of service without rust or corrosion.
- **Push-button Simplicity.** All settings and information retrievable at your fingertips.
- **Vortex Backwash System.** Scrubs iron and turbidity from the resin bed with each regeneration.

Model Number	Max. Grain Capacity	Type of Regeneration	Resin Volume Cu. ft.	Overall Height	Salt Storage	Pipe Size
II0948	34,000	Meter	1.0	56"	300 lbs	3/4" or 1"
II1248	68,000		2.0	56"	300 lbs
