

HEX Series

Water Softener

- 6 lbs of salt per regeneration
- Superior iron removal capacity
- High flow rates
- Less pressure drop

Think Green!

Uses only 6 lbs of salt per regeneration. This represents a 33% savings when compared to standard water softeners. Not only do you save substantial dollars, but you reduce the hassle of carrying salt.

HE Water Softeners utilize a revolutionary new resin that has higher kinetics resulting in less salt usage, greater softening capacity, better iron removal, and is more tolerant of chlorine.

A water softener you can feel good about!

Model Number	Grain Capacity		Type of Regeneration	Service Flow Rate		Resin Volume	Overall Dimensions			Salt Storage	Pipe Size
	Max.	Std.		Peak	Service		D	W	H		
HEX0948-1	31,000	22,500	Meter	22	8	1.0	18"	27"	56"	220 lbs	1"
HEX1054-1	46,500	33,750		22	12	1.5	18"	28"	62"		
HEX1248-1	62,000	45,000		24	16	2.0	18"	30"	56"		
HEX1354-1	77,500	56,250		25	20	2.5	18"	31"	62"		
HECX1035-1	31,000	22,500		25	8	1.0	16"	21"	43"	120 lbs	

NOTE: Service flow rate of control valve with bypass and meter is 27gpm @ 15 psig drop.
