

XNT Series

Water Softener

- Bottom Line Savings
- Cleaner Laundry
- Improved Dining
- Plumbing Protection
- Sparkling Dishes

- **High Efficiency** uses significantly less water than a mechanically controlled water softener. Meter initiated with a 30,000 grain capacity.
- **Capable of Reducing Iron.** Hi capacity resin may eliminate need for an iron filter, when ferrous iron is present.
- **Space Saving Design.** Small foot print only 12" x 25". fiberglass, stainless steel, or similar materials to provide years of service without rust or corrosion.
- **Modular Design.** Provides quick serving of the control. No bolts or screws means most repairs can be done without tools.
- **Adjustable Regeneration Cycle Sequences.** Programming can be adjusted to handle your exact water conditions.
- **Vacation Mode.** Shuts system down until you return. Turns system back on automatically when water is used.
- **Proportional Brining.** Varies the amount of salt used depending on capacity remaining.
- **Optional Injector Cleaner.** Eliminates service calls. Cleans with just a push of a button.
- **Full-Flow Bypass Valve.** Permits the watering of the yard or garden with raw water.

Model Number	Grain Capacity		Type of Regeneration	Service Flow Rate		Resin Volume	Pipe Size
	Max.	Std.		Peak	Service
